

WRM-HW Lite

WRM-HW Lite is a low-cost device for remote management systems. WRM-HW can be used as a part of Wapice Remote Management system (WRM). Designed by Wapice, it has complete customization opportunities. **WRM-HW Lite** is designed to meet the requirements of industrial conditions.

Product Family

WRM (Wapice Remote Management)

TECHNICAL DATA

Processor	ARM9
Flash	4/128MB Serial Flash
RAM	8/64MB SDRAM
RS-232	1
RS-485	1
USB	2 x host, 1 x device
Digital Output	4 x 0/5-30V
Digital Input	4 x 0/5-30V
Analog Input	2 x 22 mA, 2 x 0-30V
Ethernet MAC 10/100 Base-T	1
1-wire	1
CAN	1
Connections	GPS/GSM/GPRS
Shock Sensor	Yes
Multimedia Card	Micro SD
Supported Operating System	Linux
Operating Temperature	-30C to +60C
IP Class	IP 65
High Input Voltage Range	8 – 36 VDC
Weight	212 g
